

# MAJESTIC DOWNFALL

## WATERS OF FATE

**Compositor letras/música – Eduardo Jacobo Córdova Lucas**

VEINS

The dead rises  
All is bleak, and long gone wrong  
Funeral masses  
The vulture seeks and reeks with pride

Black hole ahead  
Bringer of dead

Why is the feeling?  
Why is it no longer there?

The clouds now gather  
Nausea flows into veins  
Into pains

I have drowned you  
Left inside all the pain  
Time, now a constant self-remain

Funeral masses  
The vulture seeks and reeks with pride  
The dead rises  
All is bleak, and long gone wrong

The feeling  
The seasons  
The fate  
No longer there

Gone the life  
Demise cries  
All there is to see  
Scorched earth, the farewell's here

The feelings gathered  
Aimed for my throat  
Slashed me to pieces  
Left me to rot

The veins dried out  
And drained all my blood  
Left them burning to ashes  
Invaded their crown with thorns

Die, die

Evil convictions of death  
Colored my knife  
A nail, within the pain  
Combustion of hate

Fire  
No longer there  
Passion  
Has all been shed  
A nail within the pain  
Combustion of hate

## CONTAGIOUS SYMMETRY

A vision premonition  
Dark angel on earth  
Mildness all around her  
Refinement on the rise

Stepping on the media  
Defined to be the one  
Clear sight of what's to come  
She shines without the sun

She'll rise  
Demise  
Hope instead of lies

She'll fly  
Away  
Leave all behind

In a world  
Where hate reigns supreme  
She'll evade  
And live up to her dream

Feel the burn  
No time for pity  
Forward will  
Submit and do the kill

Lacerated envy  
Through the path she walks  
Hail, kill  
Be the one and own

No time, no place  
Never a disgrace  
Be the one and own  
Hail the will to kill

I am insanity to you  
You are the balance I feed from  
Don't feel disgusted  
The weapon will soon sink in

The life will prove all  
Contagious symmetry  
Your death will not come  
You have sunk in

You have transcended

Even hell  
At your feet  
You crushed them all

Rivers of jealousy  
Still flow the earth  
You drowned them all

Contagious symmetry  
You have sunk in  
Your death will not come

Transcended at your will  
You are full of steel  
Hail, kill, hail, will

## WATERS OF FATE

Black clouds in misery  
Now rain my sky  
Black tomb confronting me  
Rots all behind?

The air  
Slowly fading  
The sun  
Now shines no more

The moon embracing me  
Night over day  
Leave all behind

Shall there be turning back  
All leads to dark  
I'm in my coffin trapped  
White walls inside

Hundred miles an hour  
The time to choose my way  
The red flows even further  
Shall I let it go away?

The pouring is now stronger  
The waves crash in my veins

I, sail down the river  
I, flow with the stream

The hell below me  
Will catch on me  
Will reek the heavens  
Will set me free

No sight of the dead  
But will soon be  
Take down the splendor  
Now set me free.

The pouring is now stronger  
The waves crash in my veins

The moon embracing me  
Night over day  
Leave all behind

Waters of fate  
Crawl, is it too late?  
Waters of Fate  
My game  
COLLAPSED PITCH BLACK

Sickening ways of misery  
Unfold the dark and all that lies  
Blood drains, freeze stains  
A marble naked soul

The blood red vessels  
The ones that fed  
I never saw it  
I was there, all along

My castle fainted  
Collapsed Pitch Black  
For light I am searching  
Welcome to night

Your world was I  
Liquids of the night  
All I had in me  
Collapsed Pitch Black

The blood red vessels  
The ones that fed  
I never saw it  
I was there, all along

Insomnia  
You are my clandestine  
Fulfill my night  
My will to die

My weary eyes  
Tear up the skies  
Bring down the heavens  
Hell here now lies

Fallen, angels  
Drain my blood

Walls, of hunger  
To serve, to not

The senseless weather  
Infecting them  
Swallow their sorrow  
Now even more

The mindless road

I decided to take  
Led my whole life  
Drained my whole breath
