

Jewel Of The Crowd

I caught the lady staring at my microphone. I swung it like a lasso and i took her home.
There's a full moon in my room and I want to howl. I'm a man. I'm an animal on the prowl.

Jewel of the crowd. She loves it loud.
Jewel of the crowd. She loves it loud.

My backstage barbie was the frontrow fire. She was shaking, She was moving like a true live wire.
If the stage is my kingdom then i need a queen. Let's be seen by the scene that was busting at the seams

Jewl of the crowd. She loves it loud.
Jewel of the crowd. She loves it loud.

She's the jewel. She's the jewel. Jewel Of the crowd.
She's the jewel. She's the jewel. Jewel of the crowd.

Rebirth

**I'm done doubting and dying
Death drove me down.
I'm gonna fight for the rest of
my life. Keep my feet on the ground.**

**Rebirth. Shed the curse.
Rebirth of the soul.
Rebirth. Shed the curse.
Rebirth of the soul.**

**You know I live it and love it.
My dimes in decline.
Explosions of sound help me turn it around.
No looking back as I climb.**

**Rebirth. Shed the curse.
Rebirth of the soul.
Rebirth. Shed the curse.
Rock N Roll has got me feeling right!**

**You've got to sing it and mean it.
Bleed for your love.
Pumping the heart with the power and pride.
I'm on a ride. I'm alive.**

**Rebirth. Shed the curse.
Rebirth of the soul.
Rebirth. Shed the curse.
Rock N Roll has got me feeling right!**

SLEEP PARALYSIS

I hear the static and whispers.
Frozen alive. Cant close my eyes.
An ill Will aligned with a Shiver
Delivers the shadow of evil tonight.
dreams of flames light the way.
Half awake as I break.
Set the shield on fire.
My thoughts feed the jaws of hell.

I suffer and suffer. I can't rest.
I'm wasted and tired of facing death.
A Jungle in my head just to wake up dead.
Sleep paralysis. That's the analysis.

I can not scream. Stuck in silence.
Visions of horror corrupting my sight.
The ghost is a host to the violence.
Ripping the spirits away from the light.

Dreams of flames light the way.
Half awake as I break.
Set the shield on fire.
My thoughts feed the jaws of hell.

I suffer and suffer. I can't rest.
I'm wasted and tired of facing death.
A Jungle in my head just to wake up dead.
Sleep paralysis. That's the analysis.

She's Inescapable. Unmistakable.
I'm Paralyzed. She eats me alive.

My hallucinations Ride me and drive me into fear.
Heavy deprivation, The Situation is severe.

She's coming for me. She's coming for you. You cant get away. There's no way.

She's coming for me. She's coming for you. you cant get away. There's no way. No!

I suffer and suffer. I cant rest.
I'm wasted and tired of facing death.
A Jungle in my head just to Wake up dead.
Sleep paralysis. That's the Analysis.

Fall. Hitting a wall. My curtain call
Cold. Striking the bones. I'm Never alone.

Then Fire. Hellfire.
Burning, Burning, Burning Away.
High-Wire, Hellfire.
Burning, Burning, Burning again.

The beasts of the dead want to feast on your head.
The beasts of the dead want to feast on your head.
The beasts of the dead want to feast on your head.
The beasts of the dead want to feast on your head.

It's a war on the brain. It's a constant strain.
Never to sleep in fear of pain.
a war on the brain. I can't leave the bed when
The beasts of the dead feast upon my head.

She's So Marie

Oh she's so Marie.
Oh she's so Marie.
Oh She's so Marie.
She's so Marie.

February, Empowering the cold.
Melt the morning's with a bit of subtle smoke. Planetary stability declines.
There's no butterflies where the buzzards fly. Open your eyes.

Sipping and tripping on tea.
Magic marries memories.
Hello and goodbye again.
Where have you been?

A nomadic charmer
won't settle for the storm.
Undress the armour. A Scorpio's born.

Oh she's so Marie. What will be will be.
She's not running. Sick of nothing. She will dare to dream.
Oh she's so Marie. What will be will be.
She's not running. Sick of nothing. She will dare to dream.

Searching for the summertime. Keep looking up. The Stars will align.
Will the hard times ever end?
Keep your head up , Friend.

Lionhearted, Won't settle for the storm.
That concrete jungle won't keep you warm.

She's got a first class ticket to the sky. A first class ticket!
She's got a first class ticket to the sky, let's fly!

Let's trade the screen for a scene.
Project a smile from a scream.
Be aware of your well being.
Time may be fleeing.

Be strong and brave. Nobody's slave.
Finding your way. Healing today.

Oh she's so Marie. What will be will be.
She's not running. Sick of nothing. She will dare to dream.
Oh she's so Marie. What will be will be.
She's not running. Sick of nothing. She will dare to dream.

It's long way back

When you can't find home.
It's a long way back.
All alone.

Moon Turns Red

**My mind struggles. Toss away regrets and loss.
Perfect timing amid the bearing of the cross.
Sick of trying. Attack life with a conscious strike.
Rock bottom comes knocking. Slam the door or die.**

**See the moon turn. See the moon turn. See the moon turn red.
Study and learn. See the moon turn. See the moon turn red.
See the moon turn. See the moon turn. See the moon turn red.
Study and learn. See the moon turn. See the moon turn red.**

**Lonesome loser. My jail cell's built of booze and bars.
Beaten up boy. These scars better make a star.
Caveman crawling. Peeking out, Seeking out the glow.
Monkey in the mirror. Never felt so low.**

**See the moon turn. See the moon turn. See the moon turn red.
Study and learn. See the moon turn. See the moon turn red.
See the moon turn. See the moon turn. See the moon turn red.
Study and learn. See the moon turn. See the moon turn red.**

**Moonlight and the rain. Magnetic, Mesmerizing and strange.
I'll die for the sky. The lunar pull controls the tide. I'm ready to ride.**

**Take it away, Take it away.
Take the sun and take the day. Take it away.
I need the night. I bleed the night.
The moon is red. So bloody red. The moon is bright.**

Red! Red! Red! Red!

**Feeling so down and cold.
Dealing with getting old.
A gift given from the sky
Reflecting red in my eyes.**

Red! Red! Red! Red!

Pull Of The Void

This stupid city kicks me when I fall.
I'm sickly skinny climbing up these walls.
Stress is starving and it eats me up.
Heads up, I'm messed up. I've been struck by bad luck.

Oh! Open the wounds.

Hey! Hey! Hey!

Pain, I push it away. It comes in waves, Back and forth. Rocking me with misery.
Shame devours my days. it's in the way.
Unwanted stay. God damn, Why am i jittery?

The pull of the void is strong.
I'm ruined and I've done wrong.
If I detect the dawn hope came along but if I'm gone
the swansong spawned.

Break, Take it apart. Doomed to decline. A heavy heart rotting in this mystery.
Aches, my body shakes. Earthquake of mistakes
Each time I wake, I must forsake my haunted history.

The pull of the void is strong.
I'm ruined and I've done wrong.
If I detect the dawn hope came along but if I'm gone
the swansong spawned.

What have I got to prove? What have I got to lose?
When life is painted blue, what else could i do?
The circus screams at night.
The noise has reached new heights.

It's the sun versus the gun.

Wars, Behind closed doors. I'm one with the floor. I'm sore and poor. Riddled with such depression.
Whores, Perversions chores. The hunger for more yet I swore to wash my hands free of sins

The pull of the void is strong.
I'm ruined and I've done wrong.
If I detect the dawn hope came along but if I'm gone
the swansong spawned.
