### **9) Hyper Reels**

Can you Feel the Decay?  
We are at war within ourselves  
United, we must co-operate, not compete  
We must have concern, not condemnation

We must enable ourselves to feel connected,  
not just for ourselves  
If you attempt to numb the pain,  
you are doomed to succumb and remain

This mass hysteria won't take us down.  
We will continue On and On

We are not these false bodies  
We are all connected  
We will realize what it means  
To be, Awake

### **10) Iswara**

Tracing our steps back  
Lost in, an internal reflection  
there's so much to unpack

How can I indulge?  
When it brings far more misery than I had started with  
Make my mind divulge  
The internal mystery

x3
