

WORLD ON FIRE

There's a part in everyone that is broken
All it takes is one moment
To set you back, and relive the pain
Forever chasing the smoke from the remains
Of what you thought you were
Now all has fallen

And you're torn apart
The fragments of your broken heart
Are shattered on the floor
Here you stand, match in hand
Waiting for a sign

Set your world on fire
Break free from the part of you beating you down
let your soul burst into flames
Be a renegade

The light can feel so painful
When you've been locked away for years in the dark
You punish yourself for the mistakes you've made
Its never ending, you're suffocating

And you're torn apart
The fragments of your broken heart
Are shattered on the floor
Here you stand, match in hand
Waiting for a sign

Set your world on fire
Break free from the part of you beating you down
let your soul burst into flames
Be a renegade

In Silence
You'll find the courage to start over
In the broken places you'll find your strength
Break free from the pattern and be reborn again

Set your world on fire
Break free of it all

Set your world on fire
Set your world on fire
On fire

THE WAIT

Sometimes it hurts to leave that what you've known
Wall built around my heart, cold like stone
Only the brave walk towards the dark
There you will find what you're looking for

By my sun I'm coming for you
I'll fight through the dirt and snow
'til you are safe in my arms
My search continues

Am I on your mind?
Am I in your dreams?
Can you feel me?
I just want you close
Feel you on my skin

Can you feel my sorrow
I'm fighting to save you
Scars upon my heart
I hear you, I feel you tonight

Through all this pain and loss my heart was gone
Can I live this life with the choices I've sewn
Will you find me will you take me home
Save me from myself, save me soon

ABERRATION

My reality has been torn into strands, I'm walking alone
Twisting my world from what it was, something dark and cold

I'm in this place and though it looks like my home
Well, it's dark and cold and I'm all alone in here
I can feel the darkness eating my fear
Someone help me

I'm loosing in this fight I feel within myself
Caught in a delusional reality
I am in this world alone

I'm in this place and though it looks like my home
Well, it's dark and cold and I'm all alone in here
I can feel the darkness eating my fear
Someone help me

I'm fighting to get back from a world that is not my own
Lost in a delusional reality
I am in this world alone

What will become of my life if I can't right my head
Upside down I struggle not to drown

What will become of my life if I can't right my head
Upside down I struggle not to drown

BREATHE YOU IN

I feel you
I feel you in my veins
Breathe you in
You're intoxicating
Adrenaline runs through me as you take control
My head is spinning

I breathe you in
You bring me to a state of euphoria
I breathe you in
I'm under your spell

Just let go of you're worry and open your mind
Let me take control
I'll feed your hunger just close your eyes
Give into temptation

Loosing all my inhibitions
Awakening my desire
Craving you, wanting more
You're within my reach
Oh I need you

I breathe you in
You bring me to a state of euphoria
I breathe you in
I'm under your spell

Breathe you in
Breathe you in

OF THE ASHES

Wash the blood from our hands it's time to move forward
Might be loosing the battle, but we'll win the war
In the trenches we wait preparing the ambush
Together we'll fight crossing enemy lines

Armed with weapons of destruction
No fear in our hearts
No doubt in our minds

Follow me out of the ashes
Nothing will stand in our way
This is our war
Stand together in victory

Under enemy fire the rounds pierce our armour
We won't hide our scars
We will wear them with pride

Running low on ammunition
We will not stand down
We'll fight and hold our ground

Follow me out of the ashes
Nothing will stand in our way
This is our war
Stand together in victory

This is our war
Together we'll fight
We won't stand down it's the battle of our lives
It's now or never

This is our war
Together we'll fight
We won't stand down it's the battle of our lives
Our lives

Out of the ashes
Nothing will stand in our way
This is our war
Stand together in victory
