

Lyrics - Osculum Pacis (Stratuz)

MORNING STAR

Lux Fer
torment for them
wisdom
for the seeker

Torments
breaking chains
walking
through my shadows

Fire in your eyes
Light in your mind
Destroys their lies
and rules the earth

A blind man seeking the light
and waiting with their pain
perhaps their tears full of life
can heal my open wounds

The light of the morning star
is reflected in his face
The truth is revealed to him
his name is LuciFer

Don't fear (bis)
the light reflects from your shadows
Don't fear (bis)
Venus shines in your dawn

A blind man seeking the light
and waiting with their pain
perhaps their tears full of life
can heal your open wounds

The light of the morning star
is reflected in his face
The truth is revealed to him
his name is LuciFer

Exorcise me

Exorcise me

*Exorcizamus te,
omnis immundus spiritus,
omnis satanica potestas,
omnis incurio infernalis adversarii,
omnis legio, omnis congregatio et secta diabolica,
in nomine et virtute Domini Nostri Jesu + Christi*

priests
paedophiles
exorcise
their lies

Father

HOLY GRAIL

The holy cross is freezing
in your eyes its reflection

Alone

my whole mind is darkness
your skin in my hands is a secret

how strange is the pleasure
spill your blood on my tongue

Coro I

if your love is condemned
to my hell
the doors of light will close
in your sky

if my darkness fills you
you will lose your faith
my words in blood will spill
in your holy grail

CAELIBATUS

Caelibatus (bis)

Venerable Fathers of the Council
with his permission and the invocation of the
Paraclete Spirit
we follow our mandates
with the holy cross as a witness

Eternal father forgive my wishes
the cross on his chest distracts my oath
the sweat on my face reveals my desires
are demons showing me the way

I want to bite
her juicy lips
is this sin?

she talks to me
her look is a snake
is she a demon?

I wish to escape
from my prison
is this sin?

I want to wallow
in their deep sins
is she my love?

she talks to me
her look is a snake
I wish to escape
from my prison

Caelibatus (bis)

IN THE NAME OF GOD

Blood and tears on your grave
the sky unfolds in pain
souls run screaming your name
your confused spirit is alone

Oh my lord
for charity
this was for love
the child forced me

No!

In the name of God I'll conquer
may all your children come to me

In the Name of God
I will be your guide

his suicide was your offering?
in front of your cross you tore his soul

Blood and tears on your grave
the priest decided to flee through death
souls run screaming his name
her rotten soul is wanted

Someone waits for him

BACK TO THE SUN

Your look is gone
Your mind is naughty
Your smile gives you away

You know the job is done
The seeds have been sown
Your tears have watered them

The light of your wisdom
has been poured
into their hearts

The leaves dry
returning to the ground
the sun is witness

Your sons prepare
your merciful way
back to the sun

That your light
is reflected
in my darkness

The doors are opening
Your body is wasting away
The circle has been closed

SODOMIZED

The chorus of lies
rumbling in the temple
their innocent voices
they intoxicate the fantasies of the priest

their mothers have given their children
this is an induced death
a slow suicide
a very dense pain

The chorus of lies
adorn the tainted words
The chorus of lies
deify the priest

sodomized in front of the cross
sodomized by the power of God
sodomized this is the body of Christ
sodomized by the power of Love

My love for you is infinite
because their parents beg me
the tithe is the tithe
remember
the tithe is the tithe

Sodomized (Bis)

DAWN

Let's get up from this long dream
it's time for your voice to be felt
let's break down the walls of ignorance
the signs have risen from the sand
The doors have been opened for you
the torch has been given to you

the cross is coming down (bis)

Anger has been unleashed
Mercury rides the eagle again
The Sun will blind our enemies
The nine has returned

Behold the tears of the oppressed
humiliated in the sunlight
Here is your moment
all rivers go to the sea
you have been called

You have been called
to break down the walls of ignorance

LEFT

Screaming at the moon
dragging chains into the sea
you are crying alone
the darkness can kiss

Is today one day more or one day less in your
dreams?

looking into your eyes I feel the infinite pain

we are alone

Screaming at the moon
dragging chains into the sea
you are crying alone
the darkness can kiss

Is today one day more or one day less in your
dreams?

Don't wait for me that I'm lost
feel me in your dense darkness
deep like your pain and fears
deep like your mind and doom

Is today one day more or one day less in your
dreams?

Breath we are alone

CONDEMNED

Under a world immersed in sorrows
Rancor, discordance

You can't choose to live
you can't choose to leave
you're the guest
perfect stranger

You are free
only when you sleep
or slave
of your nightmares

clowns need your laughs to soothe their pains
walking in the shadows

You can't choose to live
you can't choose to leave
you are the prey
or manure

Lost in the darkness found my home

I see lies embracing temples

You can feel this
the noose around your neck
the way
to get to heaven

you can feel this
praying like a slave
is the word
Holy hypocrisy

Don't pray for me
I don't want your sky

Don't pray for me
I prefer my hell
